Updates to DT2 for Industry Users

DSP Form Changes

- New** **OMB Expiration Dates**

PureEdge DSP forms (5, 6, 61, 62, 73, and 74) have all been updated with their respective most recent OMB expiration dates.
- New** **The Applicant's Statement Text Update**

The Applicant's Statement text has been updated on all PureEdge DSP forms (5, 6, 61, 62, 73, and 74) to correct typographical errors and ensure consistency across DDTC publications
- New** **The DSP-5 Form Title**

The DSP-5 Form Title has been changed to read: APPLICATION FOR PERMANENT EXPORT OF UNCLASSIFIED DEFENSE ARTICLES, RELATED TECHNICAL DATA, AND DEFENSE SERVICES
- New** **PureEdge DSP Form Versions Updated to v6.0**

Form versions on the DSP-5, 6, 61, 62, 73, and 74 have been updated from v5.0 to v6.0
- Fixed** **Country Errors**

This release fixes several typographical errors in country names in the DSP Dropdown menus and ensures that all countries are shown in proper alphabetical order.
- Fixed** **Estimated Burden**

Text has been formatted for consistency across forms on the DSP6, 61, 62, and 74
- Fixed** **DSP-5 and 73, Block 8**

Corrected a minor typographical error to read: "This application represents ONLY a completely new shipment"

DT2e Functional Changes

New

DSP Form Submission

DT2e will now directly reject old versions of the PureEdge DSP forms at the time of submission. If the user submits an old form, the confirmation page will advise the user to download the latest version of the DSP forms instead of issuing a receipt (case) number.

New

Track Status Updates

The "License Officer Name" and "Staffed" dropdown fields have been removed. In addition, the status dates fields have been relocated under the status request field to improve usability.

New

User Maintenance

In the "View Users" interface, Industry Super Users can now see the "Last Login Date" associated with each user/certificate. This information is intended to assist the Super Users determine which certificates can be safely deleted.

New

Amendment Rejections

Amendment case types 6, 62, and 74 will be automatically rejected if the base license has not yet been adjudicated with a positive result. If users submit an amendment with no valid referenced base license, the amendment application will be rejected and users will receive an error message on the Track Status page with a rejection reason.

New

User-Submitted Add Doc File Names

Add Docs submitted after the original case submission will retain the user-submitted file names to facilitate any follow-up needed between DDTC and the submitter.

New

Industry User Authentication Required for Defense Trade Cooperation Treaty Queries

The Treaty Reference System (TRS), which is used to validate Approved Community membership under the Treaty(ies), has been removed from the DDTC Treaties tab. TRSe functions have been incorporated into DT2e and are available to DTRADE-approved users via the DT2e Welcome screen by clicking on the "DTCT Search" link.

Fixed

Submission Confirmation Page Time Stamp

The time stamp has been corrected on the submission confirmation page for submissions made during either the noon or midnight hour.

Fixed

Multiple Country Codes

The database has been updated to allow space for multiple country codes. As a result, cases with many destination countries should no longer experience errors.

Updated

User Profiles

Industry user profiles with expired certificates (i.e., more than two (2) years old) have been removed from DT2e.
