RE: Transportation and Related Equipment Technical Advisory Committee's
Comments to Proposed Rule Implementing EAA Section 17(c) Criteria

Dear Ms. Ganzer:

The Transportation and Related Equipment Technical Advisory Committee thanks the Department of State for the opportunity to submit comments on the Proposed Rule clarifying its position on the implementation of section 17(c) of the Export Administration Act of 1979.

Although members of the Transportation and Related Equipment Technical Advisory Committee may be submitting specific comments, as a whole, the Transportation and Related Equipment Technical Advisory Committee endorses the specific recommendations of the Aerospace Industry Association (AIA), submitted under separate cover.

The Transportation and Related Equipment Technical Advisory Committee would be pleased to meet and discuss these comments, should the Department of State feel that such a meeting would be helpful in finalizing the Rule.

Yours truly,

Kimberly A. DePew
Industry Chair, Transportation and Related Equipment Technical Advisory Committee
