

United States Department of State

Washington, D.C. 20520

JUL 24 2002

Dear Mr. Speaker:

Pursuant to Section 36(c) of the Arms Export Control Act, I am transmitting, herewith, certification of a proposed license for the export of defense articles or defense services sold commercially under a contract in the amount of \$50,000,000 or more.

The transaction contained in the attached certification involves the export to South Korea of technical data and defense services related to the overhaul of J79 and J85 gas turbine aircraft engines in South Korea. Additionally, the agreement provides for the overhaul of J79 and J85 engines from Bahrain, Ecuador, Kenya, Mexico, Saudi Arabia, Thailand and Yemen.

The United States Government is prepared to license the export of these items having taken into account political, military, economic, human rights and arms control considerations.

More detailed information is contained in the formal certification which, though unclassified, contains business information submitted to the Department of State by the applicant, publication of which could cause competitive harm to the United States firm concerned.

Sincerely,

Paul V. Kelly  
Assistant Secretary  
Legislative Affairs
