

United States Department of State

Washington, D.C. 20520

APR - 3 2009

Dear Madam Speaker:

Pursuant to Sections 36(c) and 36(d) of the Arms Export Control Act, I am transmitting, herewith, certification of a proposed manufacturing license agreement for the manufacture of significant military equipment abroad and the export of defense articles or defense services in the amount of \$100,000,000 or more.

The transaction contained in the attached certification involves the export of defense articles, including technical data, and defense services to Japan for the manufacture of the Integrated Digital Electronic Engine Control, the Engine Diagnostic Unit, the Engine Analyzer Unit and the Data Control Unit for the F100-220E engine used in the Japanese Ministry of Defense F-15 aircraft.

The United States Government is prepared to license the export of these items having taken into account political, military, economic, human rights, and arms control considerations.

More detailed information is contained in the formal certification which, though unclassified, contains business information submitted to the Department of State by the applicant, publication of which could cause competitive harm to the United States firm concerned.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael C. Polt".

Michael C. Polt
Acting Assistant Secretary
