Dear Mr. Speaker:

Pursuant to Section 36(c) of the Arms Export Control Act, I am transmitting, herewith, certification of a proposed manufacturing licensing agreement for the export of defense articles, to include technical data, and defense services in the amount of \$100,000,000 or more.

The transaction contained in the attached certification involves the export of defense articles, to include technical data, and defense services for manufacture, test, and delivery of the AN/APG-68(V)9 Antenna LRU, Transmitter LRU, Antenna and Transmitter LRU subassemblies and other Radar Test Equipment for the AN/APG-68(V)9 and for the AN/APG-66/68 Fire Control Radars for end use by Northrop Grumman in the United States for incorporation on the F-16 aircraft.

The United States Government is prepared to license the export of these items having taken into account political, military, economic, human rights and arms control considerations.

More detailed information is contained in the formal certification which, though unclassified, contains business information submitted to the Department of State by the applicant, publication of which could cause competitive harm to the United States firm concerned.

Sincerely,

A handwritten signature in black ink, appearing to read "Joe Macmanus", written in a cursive style.
