

United States Department of State

Washington, D.C. 20520

JUN 22 2012

Dear Mr. Chairman:

Pursuant to Section 36(d) of the Arms Export Control Act, I am transmitting, herewith, certification of a proposed amendment to a manufacturing license agreement for the manufacture of significant military equipment abroad.

The transaction contained in the attached certification involves the export of defense articles, including technical data, and defense services to Japan for the manufacture and support of the 131-9JC Auxiliary Power Unit (APU) by Kawasaki Heavy Industries Ltd for the end-use by the Ministry of Defense of Japan (JMOD).

The United States government is prepared to license the export of these items having taken into account political, military, economic, human rights, and arms control considerations.

More detailed information is contained in the formal certification which, though unclassified, contains business information submitted to the Department of State by the applicant, publication of which could cause competitive harm to the United States firm concerned.

Sincerely,

A handwritten signature in black ink, appearing to read "D. S. Adams", written over a white background.

David S. Adams
Assistant Secretary
Legislative Affairs
