

United States Department of State

Washington, D.C. 20520

Dear Mr. Speaker:

MAY 24 2012

Pursuant to Section 36(d) of the Arms Export Control Act, I am transmitting, herewith, certification of a proposed amendment to a manufacturing license agreement for the manufacture of significant military equipment abroad.

The transaction contained in the attached Manufacturing License Agreement involves the export of defense articles including technical data and defense services to Japan to manufacture turbine blades and turbine housings for the 131-9J Auxiliary Power Unit (APU) for the end-use by the Ministry of Defense of Japan (JMOD).

The United States government is prepared to license the export of these items having taken into account political, military, economic, human rights, and arms control considerations.

More detailed information is contained in the formal certification which, though unclassified, contains business information submitted to the Department of State by the applicant, publication of which could cause competitive harm to the United States firm concerned.

Sincerely,

A handwritten signature in black ink, appearing to read 'D S Adams', written in a cursive style.

David S. Adams
Assistant Secretary
Legislative Affairs

Enclosure:

Transmittal No. DDTC 12-044

The Honorable

John A. Boehner,

Speaker of the House of Representatives.
