

United States Department of State

Washington, D.C. 20520

SEP 20 2012

Dear Mr. Speaker:

Pursuant to Section 36(c) of the Arms Export Control Act, I am transmitting, herewith, certification of a proposed technical assistance agreement for the export of defense articles, including technical data, or defense services abroad in the amount of \$50,000,000 or more.

The transaction contained in the attached certification provides technical data, hardware, and defense services necessary to support the integration, operation, test, repair, and maintenance of the F404-GE-400/402 turbine engines by RAUG Switzerland for the end-use by Kuwait, Malaysia, Canada, and Finland.

The United States government is prepared to license the export of these items having taken into account political, military, economic, human rights and arms control considerations.

More detailed information is contained in the formal certification which, though unclassified, contains business information submitted to the Department of State by the applicant, publication of which could cause competitive harm to the United States firm concerned.

Sincerely,

David S. Adams
Assistant Secretary
Legislative Affairs
