

United States Department of State

Washington, D.C. 20520

SEP 17 2012

Dear Mr. Speaker:

Pursuant to Section 36(c) of the Arms Export Control Act, I am transmitting, herewith, certification of a proposed manufacturing license agreement for the manufacture and the export of defense articles, including technical data, or defense services abroad in the amount of \$50,000,000 or more.

The transaction contained in the attached certification allows the export of technical data, defense services, manufacture know-how, and defense articles to Mexico that are required to manufacture and assemble TF33, J52, F100, F117, and F119 engine parts and components for end-use in the United States.

The United States government is prepared to license the export of these items having taken into account political, military, economic, human rights and arms control considerations.

More detailed information is contained in the formal certification which, though unclassified, contains business information submitted to the Department of State by the applicant, publication of which could cause competitive harm to the United States firm concerned.

Sincerely,

David S. Adams
Assistant Secretary
Legislative Affairs

Enclosure:

Transmittal No. DDTC 12-105

The Honorable

John A. Boehner,

Speaker of the House of Representatives.
